

## Posh Tent Company at

### Hotel Felix

The Posh Tent Company have been providing Marquees at Hotel Felix since 2005.

The packages we supply have been designed to match both the needs of the customer and the high standard expected by the hotel.

We are a family run business and this reflects not only in the quality of our service but also the outstanding quality of our equipment. We understand the importance of the marquee in the success of your event, wedding or party.

Each package contains everything you will need for your wedding or event, there are no hidden extras although there are some enhancements available and these are all listed along with the packages.

Every package includes a fully lined main marquee for dining and attached to this a fully lined bar marquee. Both marquees come complete with wooden floor which is then carpeted. All tables and chairs are included and the chairs can be either natural wood or silver banquet.

The lighting is supplied by marquee uplights and these sit behind the lining and create a soft evening glow.

The Posh Tent Company will meet with every bride and groom during the booking process to discuss the layout of the marquee and any individual needs they may have. Every customer will then be supplied an floor plan to help them visualise how their marquee will look.
